Once again, the movers and shakers in DC attempt to silence threats to their kingdom. XM is attempting to provide a service to their lisiteners (for NO additional cost) and the NAB is trying to stop them, what a crock. There is no way giving me local news and information infringes on anybody's right; the only way you COULD agree is if you accept their favors and gifts. Even then you know they're not right. Please oppose this blatant attempt to deny me my rights! Thanks you, Louis Poindexter.
